Declaration of consent:

By filling out the 'Right to Object to Receiving a Warning Text' form, I freely and voluntarily consent to ANEPC – Portuguese National Authority for Emergency and Civil Protection collecting and processing my personal data indicated above in order to enter them into a list of text recipients who are excluded from receiving public text warnings and share them with my mobile operator to carry out the right to not want to receive the aforementioned text messages.

The exercise of this right to object is valid for six months, after which if you still have the same phone number and still do not wish to receive text warnings, you must exercise once again your right to object.
